BAD NEWS PERSISTENTLY IGNORED BY THE TRADERS.

Good News Made Much Of-Cotton Carriess Rise Under the Influence of Rains-Money Markets.

NEW YORK, June 30 .- The stock market reflected the recent prevailing tendency of speculative sentiment to lay greatest stress on encouraging developments and to ignore what appears to be unfavorable with an invincible cheerfulness. The money market became quite active and call money rates ran up to 7 per cent., under the influence of the month-end demand for perations in stocks to some extent, but forced no appreciative liquidation. The special stocks which have been chosen as leaders of the market by the speculative party which has made itself the guardian f values showed points of strength at various times during the day. The course of the grain markets showed a feeling of considerable anxiety as to the effect of This Trust Company manages estates of the heavy storms on the grain crops, but all kinds, either as assignee, executor, aside from St. Paul no railroad stock was much affected by this development. On the other hand, the favorable effect of the rains on the cotton crop found a response in an upward movement in some of the cotton carriers, notably Texas & Pacific This Company also acts under wills in and Southern Railway. The coalers also T. B. Laycock Mfg. There is bemine operators have been deferring active steps toward a resumption of mining until Consultation, which is free, is invited, after the Fourth of July holidays, in the belief that the holiday period might aggravate a tendency to disorder. A buoyant recovery from recent depression in Colo-rado fuel was attributed to manipulation or to a struggle for control among disaffected insiders. Sugar also made an unex-plained rise, but the industrials generally were heavy. United States Steel stocks dropped back a fraction. JULY CORN TOUCHES 72 5-8 AND CLOSES AT 72 1-2, 2 5-8 UP.

All Grains Strong and Much Higher on the Excessive Rains-Provisions Also Show Advances.

CHICAGO, June 30 .- In the grain pits today, the denominating influence was the rain which had fallen since Saturday to flood an already soaked country. The dry spots on the map were so few as to scarcely warrant attention. Wheat closed 14c over Saturday; corn 11/2c to 21/2c up, oats 11%c to 1%c higher and provisions 21%c to 71/2c improved.

September wheat, in which option the bulk of trade was transacted in the wheat pit, opened %c to 1%c higher at 73%c to 73%c and went at a jump to 74c amid the clamor of a rain-scared crowd of shorts. Although not needed for the purpose, a decrease of 3,725,000 bu in the quantity afloat, and a report that France would have to do some steep importing owing to a prospective late European harvest acted as auxiliary influences in sustaining prices. On the other side there two considerations, lower Liverpool cables and the feeling that the rain must finally cease. Trade was very heavy during the first hour, but the price did not get outside the opening range, nor did it during the remainder of the session, when the volume of transactions decreased. The close was strong, September 14c up at 73%c. Seaboard clearances in wheat and flour were equal to 325,000 bu. Primary receipts were 637,000 bu compared with 859,000 a year ago. Minneapolis and Duluth reported 495 cars and Chicago 29, with five of contract grade; a total of 524 cars, against 452 last week and 577 a year ago. Corn was excited and feeling nervous, but prices exhibited a buoyancy which re- \$18.75 for new. Lard higher at \$10.27%. Dry fused to be dulled even when the manipulators of the July delivery dumped September into the pit in imposing quantities.

July corn startled beholders by jumping to 72%c, the highest price in ten years. A duel in the September option enlivened the opening hour. The manipulators of July began selling September, but a representative of an influential house stood close and nonchalantly absorbed everything offered.
